

Creative F/X Guide

Effect Formulas

Introduction

Smart Move® Rotators create fantastic kinetic effects as stand-alone units using only AC power, or as an addition to scrollers, foggers, or other DMX accessories. Smart Move® Rotators are a perfect fit for use in a theater, retail or architectural space, studio or house of worship. Engineered for quiet, reliable operation the Smart Move® Rotator is easy to use and will create both realistic elements and imaginative effects.

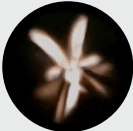

This Creative F/X Guide provides formulas to create effects using standard gobos, gel and the Smart Move® Rotator. **We would love to see your favorite effect.**
